

Water Weight

What poses for light
shot through a jar
slipped through
Spectrums is a metaphor for
Rain is a metaphor for
Sorrow is a metaphor for
glass

Bodies on the coastline
float and float
Buoyancy is the difference between
weight and density
altered by mass
Sea is a metaphor for
Silt is a metaphor for
Rest is a metaphor for
stain

Everything that can't be said
is rum in a jar
is fire in a glass
is a wound in the throat
every night that we claim
Cloud is a metaphor for
Synapse is a metaphor for
Desire is a metaphor for
desire
