

BARTON FINK  
(Joel Cohen, 1991)

*"I'm a writer, you monsters! I create!"*  
*B. Fink*

Empathy requires understanding.

The spokesman for the commoner  
has arrived in the Great City.

He carries with him  
a typewriter,  
like he always does:  
ghostly future words.

But the scrutiny of man  
never lead anyone to anything  
worthwhile.
